

Capture_file	
ID	integer
Timestamp	date
User	varchar
Host	varchar
Flag_regex	varchar
Interface	varchar

Stream	
ID	integer
Number	integer
Local_port	varchar
Remote_port	varchar
Remote_IP	varchar
Protocol	varchar
Type	varchar
Flag_sn	integer
Capture_file_ID	integer

Protocol: TCP or HTTP
 Type: "regex in" or "regex out"
 Flag_sn: Sequence number of the payload in which the flag first appears in the context of the stream

Payload	
ID	integer
Type	varchar
Data	blob
Sequence_number	integer
Stream_ID	integer

Type: request or response
 Data: gzip compression of the hex encoding of payload data, which can be for example an HTML page

HTTP	
ID	integer
Status_code	varchar
Method	varchar
Parameters	varchar
URI	varchar
Payload_ID	integer
